

How to uninstall Adobe from MAC computers - Staff

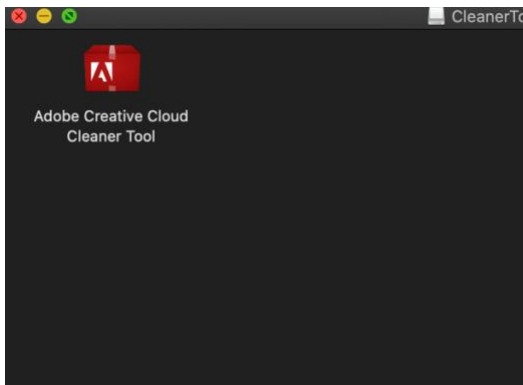

Goto: <https://fountaingatesc.vic.edu.au/>

Goto Quick Links > Resource directory

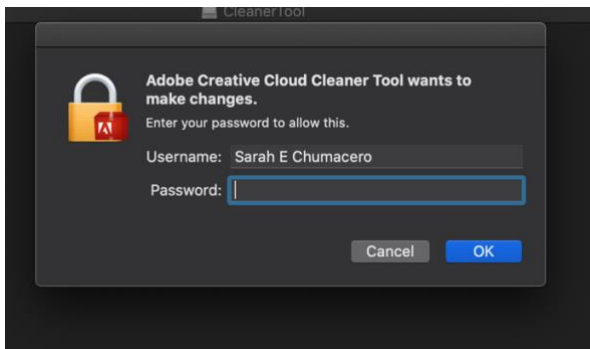

Download Adobe Creative Cloud Cleaner Tool (MAC)

Open the file: AdobeCreativeCloudCleanerTool.dmg (from your downloads folder)

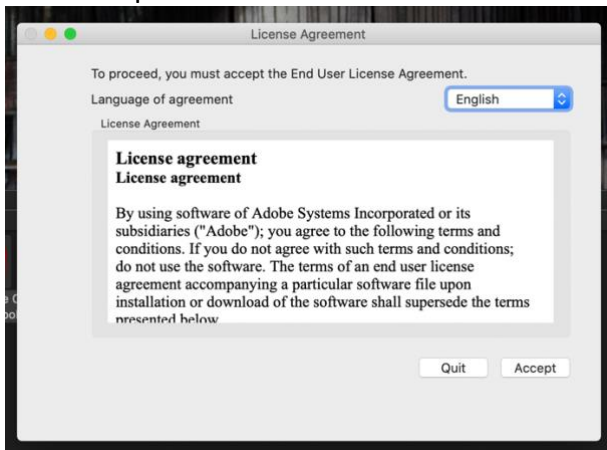

The following box will appear. Double click on the icon to run the installer

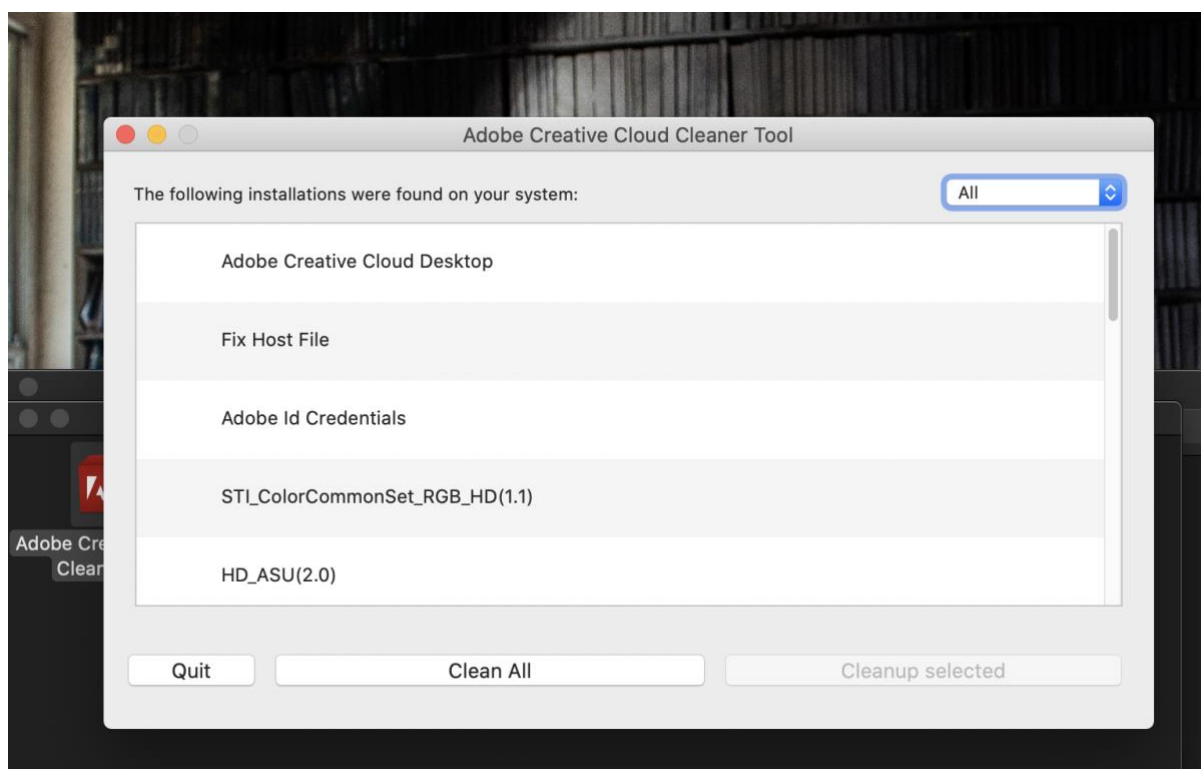

You may be prompted with the following screen. The password is the same password that you use to log onto your computer (your computer password)

Click Accept

Click on Clean All – This will remove all Adobe products. When it has finished, click on Quit

Adobe is now uninstalled; however a shortcut may still show up in your dock at the bottom of your screen. Right click on the icon, goto Options – Remove from dock . Do this until all Adobe products are removed from the dock.

You are now ready to install the new Adobe files.
